

The map displays the following geological units and features:

- Geological Units:**
 - Blue hatched area:** A large area in the upper left, likely representing a specific geological formation.
 - Red dotted area:** A large area in the center, likely representing another geological formation.
 - Light blue area:** A large area in the lower left, likely representing a third geological formation.
 - Light green area:** A small area in the upper right, likely representing a fourth geological formation.
 - Light orange area:** A small area in the lower right, likely representing a fifth geological formation.
- Other Features:**
 - Scale bar:** Located at the bottom right, showing distances from 0 to 4 miles.
 - North arrow:** Located at the top right, pointing towards the top of the map.
 - Legend:** Located on the right side of the map, providing a key for the different geological units and symbols.

This map was generated by the Colorado Hunting Atlas (<https://ndmsaprs.nrc.colostate.edu/HuntingAtlas>). Information depicted is for reference purposes only and is compiled from the best available sources. Reasonable efforts have been made to ensure accuracy. The Colorado Parks and Wildlife is not responsible for damages that may arise from the use of this map. Mapped property boundaries may or may not reflect actual legal holdings. It is the hunter's responsibility to know where private property exists. Colorado law does NOT require landowners to fence or mark property boundaries. For more detailed or missing information, please contact the Colorado Parks and Wildlife at (303)297-1192 (M-F 8am-5pm MST).
