

Portable Shooting Bench w/foldable legs

Designed by Jeff Stein

Top View

21" 2x4 Support - Cut at 45 deg both ends
Screw to shooting platform as shown

Bottom View

Notes:

- Plywood is Birch 2' x 4' x 3/4" (any plywood will work)
- All edges are hand-routed with a 1/4" radius bit, including hand holds and barrel notches
- Finish is Cabot Australian Timber Oil (Honey Teak), 1 coat bottom, 3 coats top, lightly sand between coats
- Foldable Legs made by "Rugged Buddy" #RB-H1034. Bought on Amazon.com for \$50 per set w/hardware. Made by Target Precision - Website is ruggedbuddy.com. Manufactured in 28" or 34" sizes. My table has 34" legs, good shooting height using a 5 gallon bucket and cushion to shoot from.
