Re: Counterfeit optic. Serial No. 203677AD

Dear Mr. Kilpatrick:

Leupold+Stevens, Inc. thanks you for reaching out to us regarding the counterfeit optic you received labeled with the serial number of 203677AD. We confirm that this serial number, together with the information provided to our Technical Service team, are confirmed to be a counterfeit scope. The serial number is a fake.

We are always disappointed when a customer has to deal with a counterfeit product. Leupold+Stevens strongly urges customers to purchase from Authorized Distributors and Retailers. We also recommend customers avoid online purchases from marketplace-style sites. If you choose to purchase a used scope online, we recommend you call us for serial number verification before you purchase the scope.

We pursue all counterfeiters and all counterfeit distributors. We'd be grateful if you would provide us with the name of the seller, the return address on the package you received, copies or photographs of the invoices or shipping paperwork that came with the counterfeit, the Paypal address of the seller if you paid through Paypal, and any other information you have on the seller.

Again, we are disappointed to hear that you have had to deal with this situation. Please let us know what we can do to support you, and if you have any questions.

Sincerely,

Mikael P. Crowther
Legal Manager
