- **AUTOTRICKLER V3 system with the [Ingenuity Powder Meter system](#)**

- Windows options: Can be on the Right, Left or both side
- Based options
 - A&D FX-120i Scale
 - Factory circular scale pan
 - Area 419 triangle scale pan

- **AUTOTRICKLER V4 system**

- Windows options: Can be on the Right, Left or both side
- Based options
 - A&D FX-120i Scale
 - Factory circular scale pan
 - Area 419 triangle scale pan
- Includes nylon adjustment thumb screw in the rear wing to allow tilt adjustment for your ATv4 trickler. This should help prevent the need for shimming the unit to adjust the feed flow from the smaller trickler tube as mentioned in the manual.
